Congratulations to GSMA for the successful event and the formation of APAC 5G Industry Community to accelerate digital transformation and bring more opportunities to economy growth in the APAC region. Huawei is pleased to co-host the APAC 5G Industry Community Summit with GSMA and to become one of the key contributors of the community. Huawei has been working on digital transformation to support industries for viable paths of 5G connected services in recent years. As the world begins to recover from pandemic, we need to get technology, businesses and capabilities ready for business success.”

Sean Xu, Chief Marketing Officer of Carrier Business Group, Huawei Asia Pacific

Excellent platform for the leaders of the vertical industries and the ecological partners to have in-depth exchanges on how 5G, AI, big data, cloud computing and other innovative technologies empower digital society and realise the potential of a post-pandemic digital economy on APAC region.”

Theme Headline Sponsor,  
ZTE Corporation
